

The SIOP Annual Conference is the premier event in industrial-organizational psychology, featuring more than 300 educational sessions, an exhibit hall, networking opportunities, and social activities.

An anticipated 3,200 professionals and students in the field of industrial-organizational psychology will converge on the Hilton Hawaiian Villages and Hawaii Convention Center in Honolulu, Hawaii, May 15-17, 2014, to attend this event. We are making every effort to ensure that the exhibit hall experience is engaging and educational for our attendees and a sure-fire success for our exhibitors.

Thank you for your support of this important event. Please let us know if we can assist you in reaching your marketing goals.

A handwritten signature in black ink that reads 'David A. Nershi'.
