

MMTS 2014

PLACE BONAVENTURE MONTREAL, QC 12 – 14 MAY 2014

Customs Clearance & Transportation Services

Customs:

TWI Group Inc. has been appointed by SME CANADA as the Official Customs Broker for all shipments originating outside of Canada. Using the official broker will eliminate the possibility of materials being held at the border by Canada Customs due to improper or insufficient documentation resulting in these same materials arriving too late or not at all. We will assist all Exhibitors with their temporary imports, permanent entries & export of Exhibit Materials.

Exhibitors using their own broker will have to arrange their own bond or cash deposit with Canada Customs at the point of entry into Canada.

TWI Group Inc. will provide the following services:

- Provide on-site service from the first move-in day to the last move-out day
- Post all securities and bonds with Canadian Border Services Agency
- Prepare the proper Customs entries to account for any sales you may make & remit the payments to Customs
- Prepare outbound export documents, bills of lading and provide US Customs
 Clearance when required as well as providing shipping labels

Shipping (US, International, Domestic & Local Cartage):

TWI Group Inc. has developed a competent and cost effective transportation offering, which is focused on time sensitive freight which is crucial in the Meetings, Conventions and Trade Show Industry. We have created an extremely reliable network of agents throughout the world to transport Exhibit materials via Land, Sea or Air.

TWI Group Inc. will provide the following services:

- On-Site representation
- Free Advanced Warehousing (when using our transportation services)
- Discounted & preferred time delivery freight services for all modes of transportation
- "Real-Time" tracking and tracing for all shipments
- Insurance availability

Freight Services:

By using TWI Group Inc. as your Customs Broker and Transportation provider you will have a more cost effective service that has been tailored just for you. These services not only include free advance warehousing for up to 30 days but will also provide one invoice for both your Customs and Transportation requirements.

Advance Warehousing:

TWI Group Inc. will utilize ABF as the Advance Warehouse. They are fully equipped to handle advance freight for the trade show. The shipping and labelling address is as follows:

Exhibitor Name/Booth Number MMTS 2014 c/o ABF –TWI Group Inc. 10325 Ryan AVE, Suite 200 Dorval, QC H9P 1A2

*NOTIFY: TWI FOR CUSTOMS CLEARANCE

The warehouse will start accepting freight 30 days prior to the 1st move-in day of the Trade Show. The warehouse will stop accepting freight 1 week before the 1st move-in day, any freight received after this date maybe subject to additional charges.

For more information, please contact:

^{*}Please make sure all labels appear as above *

Please read carefully before completing your documents inside.

1. TWI CUSTOMS & TRANSPORTATION ORDER FORM

Please complete the enclosed TWI Order Form, ensuring that all fields, including credit card information, are filled.

N.B. Goods cannot be returned to the U.S. after the show unless I.R.S/Tax I.D/E.I.N number is provided

2. CANADA CUSTOMS DOCUMENTATION (PHOTOCOPIES ARE ACCEPTABLE)

Enclosed is a Canada Customs Invoice. AN EXAMPLE FOR COMPLETION PURPOSES IS ENCLOSED.

How to complete the Canada Customs Invoice:

- Fill in a information required on the Canada Customs Invoice (Follow example enclosed)
- B. 3 completed Canada Customs Invoices must be attached to your Truck Bill of Lading, Air Waybill, or Ocean Bill of Lading.
- C. The Bill of Lading or Air Waybill, all Customs documents & labels must be marked "NOTIFY TWI Group Inc. FOR CUSTOMS CLEARANCE"
- Fax copies of the Canada Customs Invoice, <u>ORDER FORM</u>, Truck Bill of Lading, Air Waybill, or Ocean Bill of Lading (& a copy of the FCC Information Sheet if required)
- E. Retain a photocopy of all documents for your records & your on-site TWI REPRESENTATIVE.

3b. ITEMS THAT EMIT OR ARE CAPABLE OF EMITTING RADIATION

Goods of this type: High voltage vacuum tube or switch, industrial X-Ray systems, laser light show, microwave heating products, microwave ovens, CD Players, etc. Require an FDA Radiation Form when they are returned to the U.S. Please complete the enclosed FDA Radiation Form to ensure your goods are not delayed upon return. Send the FDA Radiation Form with your TWI Order Form.

3c. ITEMS THAT EMIT OR ARE CAPABLE OF EMITTING RADIO FREQUENCIES

Goods of this type: T.V's, communications equipment, monitors, microwaves, etc. Require a Federal Communications Commission Statement when they are returned to the U.S. Please complete the enclosed FCC Information Sheet to ensure your goods are not delayed upon return. Send the FCC Form with your TWI Order Form. Fax the FCC Form to TWI Group Inc. with a copy of the Order Form, Canada Customs Invoice & Bill of Lading or Air Waybill.

4. SHIPPING INSTRUCTIONS

Before shipping by Parcel Courier, i.e., UPS; call TWI Group Inc. for advice. We strongly suggest that all exhibitors DO NOT ship by parcel courier, or parcel post mail.

A. Exhibition goods shipped by common surface carrier should be scheduled to arrive & be available for Customs processing 1 week prior to show opening.

Exceptions:

AIRFREIGHT – Schedule to arrive 3 days prior to show opening. VAN LINE SHIPMENTS – May be sent direct to show site and should be scheduled to arrive on the appropriate move- in day.

- A. All shipments MUST BE SENT PREPAID
- For direct delivery shipments: all Truck Bill of Lading, Ocean Bill of Lading, Air Waybills & shipping labels should be addressed consigned to:

Exhibitor Name:

Booth Number:

Name of Event:

Location:

City/Province: Postal Code:

Notify: TWI GROUP INC. FOR CUSTOMS CLEARANCE

5. AIRLINE HAND BAGGAGE

If you are bringing exhibit or commercial goods as airline baggage, in most cases "Formal" Customs clearance is required.

Contact our office at least 1 week in advance of your flight so arrangements can be made. Canada Customs Invoices (Certificate of Registration Form & FCC Information Form if applicable), must accompany the individual carrying the materials.

A facsimile copy will be required for all appropriate forms including the Order Form.

6. SHOW SITE PROCEDURES

The show site has been declared a bonded area for the entire event. Under no circumstances are any goods to be removed without prior consent of TWI GROUP INC.

TWI can provide the following services:

- A. Return of goods to your stated destination.
 Export Documents, Bill of Lading and labels supplied by TWI.
- B. Arrange Customs clearance of those goods remaining in Canada. The applicable duties and taxes must be paid prior to removal from the show site.
- C. Arrange in-bond transfer of goods to be displayed at another Canada Customs recognized event.
- D. Coordinate under Customs supervision the destruction of nonreturning items.
- E. Note: TWI GROUP INC. is not responsible for lost, stolen or damaged freight. All goods should be insured; prior to; during; and after the show.

Public reporting burden for this collection of	finformation is estimated to aver-	age 0.2 hour per response, inc	luding the time for reviewing instructions, searching

existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to:

Department of Health and Human Services Food and Drug Administration Office of Chief Information Officer 1350 Piccard Drive, Room 400 Rockville, MD 20850

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

INSTRUCTIONS TO IMPORTERS/BROKERS OF ELECTRONIC PRODUCTS

PURPOSE: The Form FDA 2877 must be completed for electronic products subject to Radiation Control Standards (21 CFR 1010 and 1020-1050) prior to entry into the United States. The local Food and Drug Administration (FDA) district office will review the declaration and notify the importer/agent if the products may be released into U.S. commerce or if they must be held under bond until exported, destroyed, or reconditioned. Until the shipment is released, it may be subject to redelivery for FDA examination.

PAPER OR ELECTRONIC SUBMISSION: Paper entries may be made by submitting the signed original FDA 2877 along with U.S. Customs forms to the local FDA district office; if electronic products are given a MAY PROCEED, a signed copy of CF 3461 will be returned, or if not given a MAY PROCEED, a FDA Notice of Action will be issued. For electronic entries, follow U.S. Customs Service ACS/ABI format and procedures, supported by a signed copy of this form or similar letter. Multiple entries of the same product and model families that are filed electronically may be supported by one form dated not more than 12 months previously.

DECLARATION: Select A, B, C, or D and then select the appropriate number; fill in requested information and sign. For electronic entries, AofC (affirmation of compliance) = RA#, RB#, RC#, or RD# (e.g., Radiation Declaration A5 = RA5). **Transmit model number using AofC code MDL and transmit brand name using FDA line level brand name field. If RA3 or RA6 is selected, you must transmit quantity (number of units) using the Quantity and Unit of Measure Pairs at the FDA line level.**

DECLARATION A: Importers should be prepared to demonstrate compliance to or non-applicability of FDA standards, regulations, or guidance. Components or sub-assemblies must be non-functioning. Products being reprocessed must be exported by the importer, without intermediate transfer of ownership. For RA3 the quantity limit is 3 and for RA6 the limit = 50 units TV products, microwave ovens, and Class 1 laser products limit = 200 units CD-ROM and DVD (digital versatile disc) laser products; see May 14, 1997, notice to industry issued by the Center for Devices and Radiological Health (CDRH).

DECLARATION B: If declaration RB1 is selected, provide the FDA Establishment Identifier (FEI) of the manufacturer who filed the radiation product/abbreviated report to FDA, CDRH, Rockville, Maryland. To transmit the accession number of that report use AofC code ACC. If the manufacturer cannot be determined or located, the importer must be able to provide evidence showing a certification (certifi.) label on each product and state reason: returned to orig exporter or certifi. label evidence. The new AofC codes (RB1, RB2) for this declaration will not be activated until a process is made available to determine the FEI of the responsible firm. Continue to use RAB in electronic transmission until the FEI query is available and industry is notified of its availability.

DECLARATION C: Noncompliant products may be imported only for research, investigations/studies, demonstration or training. They should be used only by trained personnel and under controlled conditions to avoid unnecessary radiation exposure. Product(s) will be detained by the local FDA district office. Since product(s) for which "C" Declarations are made will be under Temporary Import Bond (TIB) or equivalent, ultimate disposition is limited to export or destruction under U.S. Customs supervision when the purpose has been achieved or the length of time stated has expired. For purposes other than demonstration, the Form FDA 766, outlining protections, must be approved by FDA prior to use. The importer/broker must include with the FDA 766:

- 1. A full description of the subject electronic product(s).
- 2. The purpose for which the product(s) is being imported.
- 3. How the product(s) will be used.
- Where the product(s) will be located.
- 5. The approximate length of time and dates the product(s) will be in this country.

For product(s) being used for trade shows/demonstrations, list the dates and use restrictions (Form FDA 766 is not required). A sign stating that the product does not comply with FDA performance standards must be displayed and viewable at all times during the use of product(s). All medical products, cabinet x-ray, or Class IIIb and IV lasers may NOT operate (turn on product(s)) at trade shows.

DECLARATION D: Noncompliant products must be brought into compliance with standards under FDA supervision and following a plan approved by FDA. The plan, documented on the Form FDA 766, must address technical requirements, labeling, and reporting. Some plans may need approval by both the CDRH and the local FDA district office. Use of this declaration is limited to occasional shipments; ongoing reconditioning is considered manufacturing that is handled through other means. Product(s) will be detained by the local FDA district office. An FDA 766 must be filed indicating the procedure intended to bring the product into compliance. This procedure will include a satisfactory corrective action plan and/or a product report. The FDA 766 must include all of the information requested under Declaration C. The approximate length of time will be for the amount of time needed to bring product(s) into compliance. Declaration D is also made for failure to provide reports, failure to certify, etc.

If an importer/broker intends to import equipment into the United States for purposes of research, investigation, studies, demonstrations, or training but also wishes to retain the option of bringing the product into compliance with the performance standard, check Declarations C and D on the FDA 2877 and insert the word "or " between the Affirmations. Note: The U.S. Customs Service will treat this entry as a "D" Declaration for purposes of duty. Such requests must be made on the FDA 766; include Items 1, 2, and 3 under Declaration C, a statement of the need to use the option "C" or "D" Declaration, a statement of how the product(s) will be brought into compliance and the approximate length of time necessary to evaluate or demonstrate the product(s) and the time necessary to bring the product(s) into compliance (both actions must be accomplished within the period of time granted by FDA). For electronic entries select Declaration RD3.

Ultimately, product(s) must be brought into compliance with the applicable standard in accordance with a corrective action plan which has been approved by the FDA. If the product(s) are not brought into compliance within the allotted time frame of the approved application and an extension is not requested of, or granted by, the FDA, the local FDA district office shall refuse entry on the shipment and require the product(s) to be either exported or destroyed under U.S. Customs supervision.

If additional guidance is needed, please contact your local FDA district office or consult the following FDA web pages: www.fda.gov/, www.fda.gov/ora/hier/ora field names.txt, and http://www.fda.gov/ora/compliance_ref/rpm/.
